

Individual Reflection Week 14

Martin Toremark

2022-04-08

What do I want to learn or understand better?

I want to understand React, Typescript, HTML and CSS better. This will be achieved by looking up relevant information to support the development during next sprint.

How can I help someone else, or the entire team, to learn something new?

I have continued to share relevant links for our work to the others in the team. I will continue to do this.

What is my contribution towards the team's use of Scrum?

I have continued to support the team during all Scrum events during the sprint, and I will continue to do so.

What is my contribution towards the team's deliveries?

I helped the team to deliver a few points last sprint, but since we encountered a lot of problems, many of our user stories were not completed. The focus for next sprint is to get everyone up and running so we can start delivering more value.
