Individual Reflection Week 18

Kevin Zhao

06-05-22

What do I want to learn or understand better?

As always I want to learn more about Java and JSON, as I believe there are so many things can you always learn something new. I also want to learn more about React, TypeScript and CSS as it looks really interesting and hopefully I will be able to use it to help the frontend.

How can I help someone else, or the entire team, to learn something new?

This sprint I mostly encouraged the team to work together so that we can discuss any problems together as a team.

What is my contribution towards the team's use of Scrum?

Once again I wasn't the scrum master but I tried to define user stories together with the team (that went really well this sprint) and discuss the product backlog with our stakeholder. I also participated in all the meetings and tried to effectivise our review and retrospective as it previously took fairly long time.

What is my contribution towards the team's deliveries?

I contributed by creating a few categories that was displayed in the frontend. The Theatre-category was included in user story 4.1.1 but I also created a sports-category
