Individual Reflection Week 19

Olivia Månström

13-05-22

What do I want to learn or understand better?

This week I and Tove worked on the search bar and sending data from backend to frontend. We had some issues on displaying the data, so in the upcoming week I want to learn how to display the data in our local website.

How can I help someone else, or the entire team, to learn something new?

Because I have worked pretty much with the search bar, I think I will be able to help a team member to understand that part better.

What is my contribution towards the team's use of Scrum?

As earlier weeks, I joined my team in the sprint planning, the daily stand-up meetings, sprint review and sprint retrospective. I also joined the stakeholder meeting. In the sprint planning, we wrote vertical user stories and estimated the velocity and the cost.

What is my contribution towards the team's deliveries?

I worked on the user stories that I had for the week. We did not finish one of the user stories but that was because we estimated that it would be much easier than it was. I also contributed to the team reflection.
